Dreer's Quarterly Wholesale Price List.

July=August, 1898.

BULB DEPARTMENT.—The immense quantities of Bulbs which we handle, enable us to supply them at the lowest possible prices. Our sources of supply are the best in this country and abroad, the leading growers of the world having for years supplied us with their **choicest stock**. All prices quoted in this list include duty, packing and delivery to any Express or Freight Line in Philadelphia. Should any reduction in prices be made in our September list, customers who place their orders now will receive the benefit of such reductions. You therefore run no risk by placing your order **now**.

SEED DEPARTMENT.—This is in charge of trained experts, and whether your wants may be in Flower, Vegetable, or Agricultural seeds, you may be sure to get only the choicest.

PLANT DEPARTMENT.—Our stock of decorative plants is now very complete in a full line of sizes, from small seedlings for growing on, to specimens of the most useful decorative sizes. The plants are all in a clean, healthy, vigorous condition, thrifty and well-grown, and will compare favorably with stock distributed by us in previous seasons.

Whenever possible, we solicit a personal inspection of our stock. Our nurseries at Riverton, N. J., are within easy reach from either Philadelphia or New York, and something of interest will always be seen.

A time card of trains, with directions how to reach the nurseries, will be mailed to anyone applying.

LOW EXPRESS RATES ON PLANTS, BULBS AND SEEDS.—We are shipping by express lines to all parts of the country, plants, packed in closed boxes at a reduction of 20 per cent. from regular rates of merchandise. Boxes weighing less than 100 pounds are charged at pound rates, minimum charge not less than 35 cents. For example: where the general rate is \$5.00 per 100 pounds, a box weighing 20 pounds will be carried for 80 cents. Prepaid 4 pound packages of seeds, plants, and bulbs are carried to California and all distant points for 30 cents each.

By our careful and thorough system of packing, we **Guarantee Safe Delivery** on Plants and perishable goods, when ordered to be sent by **Express**, and we always ship this way unless we have positive instructions to the contrary.

 **Plants and other perishable goods, when sent in any other way, are solely at Purchaser's Risk.** 

PRICES.—The prices quoted in this list are net, and subject to no discounts. All orders from the trade will be priced according to this list, articles offered in our Retail Catalogue and not offered in this list will be supplied at retail prices less the following discounts, viz.: Vegetable Seeds in packets, Flower Seeds, Bulbs and Plants, 33½ %; Small Tools and Insecticides, 10 %; Lawn Mowers, 5 %.

TERMS OF BUSINESS.—~~is~~ Unknown correspondents desiring to open an account, will please furnish satisfactory reference, otherwise cash must accompany order.

~~is~~ Remittances should be made by Post Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

~~is~~ Perishable goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance.

CHANGE OF TERMS.—In order to equalize and to give the same time of credit on all purchases, we have decided to abolish our old system of credits in which all accounts, regardless of date of purchase, were due in January and July, and have decided to adopt a new system, as follows:

All bills will be due and payable Ninety (90) days after date of invoice. ~~is~~ No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices. ~~is~~ In filling out your order, always give **Shipping Directions**, and write **Name and Address Distinctly**.

NON-WARRANTY.—We wish it to be distinctly understood, that although we continue to take all possible pains to supply only New, Genuine and unadulterated Seeds, Plants and Bulbs, we still give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any of the Seeds, Plants, or Bulbs we send out, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

Choice Named Miniature or Dutch Roman Hyacinths.

Excellent for growing in pots, pans or boxes ; flowering later than the French Romans. The varieties are the finest for forcing, and the bulbs measure 12 centimeters and over in circumference.

Amy, deep red.	Gen. Pelissier, dark red.
Gigantea, light pink.	Chas. Dickens, deep pink.
Baroness van Thuyll, pure white.	Queen Victoria, pure white.
Grand A'Merveille, bluish white.	Mad. Van der Hoop, creamy white.
Czar Peter, light blue.	La Peyrouse, light blue.
Baron van Thuyll, purple.	King of the Blues, deep blue.

Price. Any of the above varieties, \$1.60 per 100 ; \$15.00 per 1000.

MIXED DUTCH HYACINTHS.—In Separate Colors.

These have been carefully selected from the best varieties of early maturity, suitable for forcing and are all **First Size Bulbs**. We do not handle inferior small sized grade.

Dreer's Reliable Flower Seeds.

For Summer Sowing.

We give close attention to the Flower Seed department of our business, which is probably the largest in quantity and variety in this country.

Our constant aim is to procure the very best strains obtainable, both of home and foreign growth, and we spare no pains or expense with this object in view. We call special attention to our choice strains of Cineraria, Carnation, Calceolaria, Cyclamen, Gloxinia, Pansy, Primula, etc., which are acknowledged by leading growers to be superior in all respects. Our trade packets contain a liberal supply; where small quantities are wanted, buyers can select from retail catalogue at a discount of one third.

Vegetable Seeds For Summer Sowing.

The following list of vegetable seeds comprises the leading varieties suitable for present sowing. By sowing at intervals during the summer months a constant supply of fresh vegetables may be obtained until late in the fall. When beans and peas are to be sent by mail, add 15 cents per quart additional to price for postage. We pay postage on small seeds by the packet, ounce or quarter pound. On pound prices, add 8 cents for each lb. if wanted by mail. By express, at catalogue prices.

Pot-Grown Strawberry Plants.

If planted before the middle of September these will produce a FULL CROP next June.

While we do not offer a long list of varieties, our stock includes the very best so far as careful selection and test can secure the highest quality. Scores of new strawberries come upon the market every year, of which but few have permanent merit. Each season we add to our list all the better sorts which come forward with well endorsed claims to public favor, and each season drop from our catalogue those which have failed to fulfill the claims made by their friends.

Varieties marked (P) are pistillate or imperfect flowering, and must be planted with a perfect flowering sort to give good returns.

FOUR FINE NEW STRAWBERRIES.

EARLY MAY.—This variety was found in the wild state in western North Carolina. It is of strong, robust growth, absolutely hardy and is never injured by late frosts like most other kinds. It bears heavy crops of medium-sized berries having the rich flavor and aroma found only in the wild berry, but its most valuable feature is its extreme earliness, coming into bearing 10 days before any variety now offered. Pot-grown plants 50 cents per dozen; \$4.00 per 100.

STAR. A new variety that comes very highly recommended. The plant is extremely vigorous. This, together with its large size, perfect shape and exquisite flavor should make it a favorite where a fancy fruit is desired. Pot-grown plants 50 cents per dozen; \$4.00 per 100.

CLYDE. This new variety has been tested over a wide area and all reports are enthusiastic over its many merits and all agree that it has come to stay. Plant is very vigorous and healthy, deep rooting, standing drouth well; foliage bright green; fruit glossy scarlet and of fine quality. Pot-grown plants 50 cents per dozen; \$4.00 per 100.

SEAFORD. This has been very thoroughly and extensively tried for four years by careful and discriminating growers in one of the most critical strawberry sections of the country, and for productiveness, size, firmness and flavor, Seaford is pronounced a most remarkable acquisition. Pot-grown plants, 50 cents per dozen; \$4.00 per 100.

GENERAL LIST OF SELECT TESTED STRAWBERRIES.

Bederwood.—An exceedingly valuable early Strawberry. Berries of large size, of regular roundish form, light scarlet, of excellent quality, remaining in fruit a long time. \$2.50 per 100; \$20.00 per 1000.

Brandywine.—The finest of all late varieties. It is a strong vigorous grower with heavy foliage and perfect flowers; the berries are of immense size, color rich red. \$2.50 per 100; \$20.00 per 1000.

Bubach (P.)—Strong, healthy, vigorous plant, that will thrive well on almost every soil. Very productive of large berries that ripen early. \$2.50 per 100; \$20.00 per 1000.

Charles Downing.—Medium to large, conical, bright crimson, moderately firm, juicy and of superb flavor. One of the best for home use. \$2.50 per 100; \$20.00 per 1000.

Crawford.—A good grower and bearer, has a perfect blossom and produces an abundance of very fine fruit. The berries are large, conical, dark red, glossy, firm, and very good. \$2.50 per 100; \$20.00 per 1000.

Crescent Improved (P.)—The old Crescent is so well known, that when we say this variety is a decided improvement on it, further description is unnecessary. \$3.00 per 100; \$25.00 per 1000.

Enhance.—A vigorous and healthy grower, with dark green foliage; develops massive crowns; flower perfect; one of the most prolific in pollen; berries largest size, bright crimson color. \$2.50 per 100; \$20.00 per 1000.

Four Seasons (Fraise des Quatre Saisons.)—This is the variety which American tourists in Europe enjoy so much, fruiting during July, August and September, and well worth an extended trial in this country. There are two varieties, red and white fruiting. Can furnish strong pot-grown plants of either. 35 cts. per doz.; \$2.50 per 100.

Gandy.—A strong, healthy plant, that makes but few runners. Perfect blossom; moderately productive of large, perfectly formed berries; ripens very late. \$2.50 per 100; \$20.00 per 1000.

Gandy Belle.—An extra choice sort, bearing good crops of large, dark red glossy berries of exquisite flavor. A fine market sort. \$3.00 per 100; \$25.00 per 1000.

Glen Mary.—The largest of all large berries, and might well be named "the berry grower's money maker." A very strong grower; will stand drought well and always bearing a full crop. Ripens from mid-season to late. \$3.00 per 100; \$25.00 per 1000.

Gov. Hoard.—Originated in Wisconsin, an excellent sort, ripening early and continuing in bearing for a longer period than most sorts. \$2.50 per 100; \$20.00 per 1000.

Greenville (P.)—Berries of large size, very productive, regular in form, of a rich bright color, firm texture and of excellent quality. \$2.50 per 100; \$20.00 per 1000.

Haverland (P.)—Enormously productive of medium to large, long conical berries of pale scarlet color; extremely early, prolific and showy. \$2.50 per 100; \$20.00 per 1000.

I. X. L. (P.)—Seedling raised at Pensauken, N. J. Fruit very large, of fine flavor and brilliant color, making it one of the most saleable market berries. \$3.00 per 100; \$25.00 per 1000.

Lady Thompson. Recommended very highly. It is a perfect flowering plant of great vigor. Berries roundish conical, bright scarlet, medium to large size, firm, of very good quality. \$2.50 per 100; \$20.00 per 1000.

Marshall.—Berries of very large size; fourteen filling a basket. Color, very dark crimson throughout; fine flavor and a good keeper. \$2.50 per 100; \$20.00 per 1000.

Mary (P.)—One of the very early varieties, of strong vigorous growth, attractive in color and a prolific bearer, will no doubt become popular on account of its large size and fine color. \$2.50 per 100; \$20.00 per 1000.

May King.—A healthy plant; free runner, and moderately productive of bright scarlet berries; fine quality, one of the earliest to ripen. \$2.50 per 100; \$20.00 per 1000.

Michell's Early.—A very strong growing, extra early variety; moderately productive; quality good; very attractive in color. \$2.50 per 100; \$20.00 per 1000.

Parker Earle.—A most excellent variety. Plant very robust and suited almost to any soil. Berries are of large size, regular and uniform, and of a rich color. \$2.50 per 100; \$20.00 per 1000.

Rio.—A recent introduction that has been very highly recommended. It is of a rich glossy color, medium size, and is very prolific. \$2.50 per 100; \$20.00 per 1000.

Saunders.—Berries of largest size, conical, slightly flattened, deep red and very glossy, of good quality and very productive. \$2.50 per 100; \$20.00 per 1000.

Sharpless.—Very large, clear red; firm, sweet, and of good quality; somewhat irregular; a rapid and vigorous grower. \$2.50 per 100; \$20.00 per 1000.

Tennessee.—Perfect flowering, vigorous, stocky plant. Very productive of medium to bright scarlet berries of fine quality; ripens early. \$2.50 per 100; \$20.00 per 1000.

Timbrell (P.)—One of the most valuable of all new varieties. Berries large to very large, dark crimson, and very firm. \$2.50 per 100; \$20.00 per 1000.

Warfield (P.)—A very fine berry in every way, season medium to late, a most prolific bearer and of superb quality. \$2.50 per 100; \$20.00 per 1000.

Woolverton.—Another large berry of Canadian origin. It is a strong grower, lasting over a long season. In fact it always matures part of its crop before it is done flowering. It is a fine large berry of attractive appearance and good quality. \$2.50 per 100; \$20.00 per 1000.

CELERY PLANTS.

Celery plants can be supplied from June 15th to August 25th. We grow the following varieties, which we offer at the uniform price of

30 cents per 100, \$2.50 per 1000.

(If wanted by mail add 15 cents per 100 for postage.)

Celery requires a moist, rich soil, and will not thrive in poor soil and dry situations. After the plants have attained a height of five or six inches they should be set out in rows, three feet apart and six inches in the row. When twelve to fifteen inches high, the soil should be loosened by the use of the plow or hoe and the plants be "handled." This operation consists of drawing the stems upright with one hand, and pressing the soil firmly against the plant with the other; by this process the plant grows upright, and can be easily cultivated and blanched by drawing the soil close up to the plant. Celery should receive thorough cultivation if good results are desired. To store for winter use, select well drained ground, dig trenches one foot wide and deep enough to cover the tops of the plants. Pack the stalks in this in an upright position, covering with boards to shed the water; in severe weather protect with straw or leaves.

White Plume. We offer a choice strain of this valuable and popular variety. The White Plume is unsurpassed for fall and early winter use, requiring very little earthing up to blanch it.

Giant Pascal. A superior keeping sort. The stalks are very large, thick, solid, crisp, and of rich nutty flavor; it blanches very easily and quickly, and retains its freshness a long time.

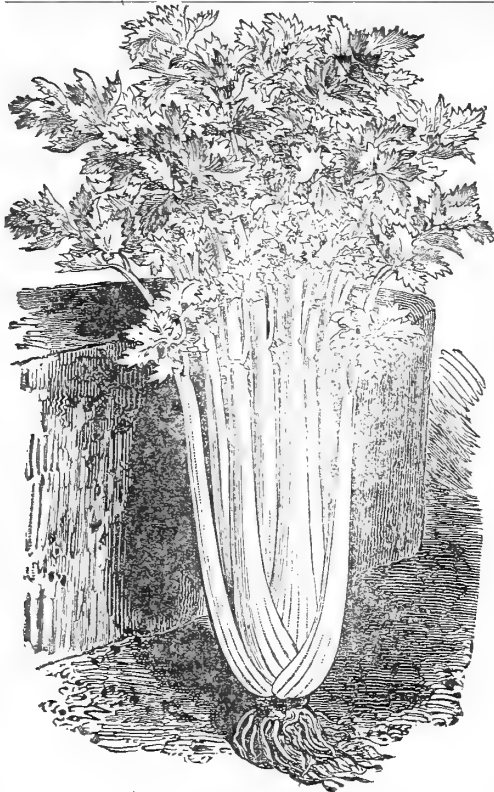

Golden Half-Dwarf. The best of the half-dwarf varieties, stalks large and full; the heart is golden-yellow, turning to a light color when blanched. Very solid, rich flavor and good keeper.

Golden-Self-blanching. (See cut.) An early, beautiful, and in every way desirable sort, requiring but little labor to blanch. The heart is a rich golden yellow, with light yellowish-green outer leaves.

Dwarf Rose. The red sorts surpass the white in flavor and possess in their coloring a feature which renders them valuable as a table ornament.

Perfection Heartwell. This is one of the very best varieties in cultivation; stalks long and thick, very compact, crisp and of fine flavor.

All Celery 30c. per 100, \$2.50 per 1,000;
if wanted by mail add 15c. per 100
for postage.

GOLDEN SELF-BLANCHING CELERY.

New Golden Rose, Self-Blanching. In character this variety is identical with the Golden Self-Blanching, except the color, which is a beautiful rosy tinge, shading to very pale pink at top of stalk; it bleaches to a beautiful golden yellow at the heart after storing for winter; a good keeper and of the very finest quality.

Miscellaneous Vegetable Plants.

In stock from middle of
June till August.

CABBAGE.

Dreer's Selected Late Flat Dutch. (See cut.) Short stem and large, solid flat heads. Our stock has been carefully selected for several years in order to get a cabbage of this type, and we are confident no better strain is on the market. 20 cents per 100; \$1.50 per 1000.

CAULIFLOWER.

Dreer's Selected Dwarf Erfurt. One of the earliest in cultivation; small-leaved dwarf, for forcing or open ground, producing very solid pure white heads of the finest quality. It grows about 15 inches high, and in ordinary seasons every plant will produce a marketable head. 60 cents per 100; \$5.00 per 1000.

Early Snowball. An extremely early dwarf variety, producing magnificent white heads of fine quality. Well adapted to hot-bed culture. 60 cents per 100; \$5.00 per 1000.

BRUSSELS SPROUTS.

Dreer's Select Matchless. A small-leaved variety of this notable vegetable, which, through careful selection has been brought to perfection; grows freely during the summer, and is fully developed by the early frosts, at which time the stems are thickly set with sprouts, the full length. 40 cents per 100; \$3.00 per 1000.

Mammoth Rock Red. The largest and most solid of the red varieties; a sure heading sort and tender. 20 cents per 100; \$1.50 per 1000.

Perfection Drumhead Savoy. Of superior quality; the largest solid-heading Savoy, possessing the rich flavor of the Cauliflower. 20 cents per 100; \$1.50 per 1000.

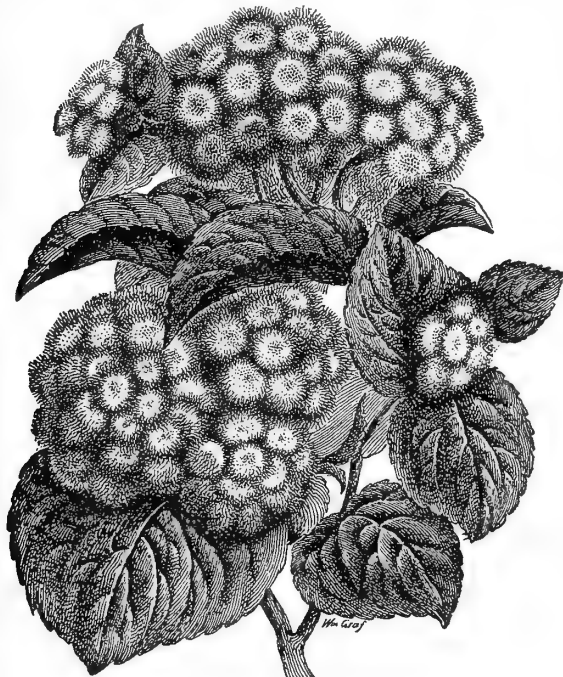

DREER'S SELECTED LATE FLAT DUTCH CABBAGE.

PLANTS FOR FLORISTS.

Our stock of decorative plants, such as Palms, Ferns, Pandanus, Ficus, Araucaria, etc., etc., is now very complete, in a full line of sizes, from small seedlings for growing on, to specimens of the most useful decorative sizes. The plants are all in a clean, healthy, vigorous condition, thrifty and well-grown.

Our Measurements of Plants, where given, as in the case of Araucarias, Palms, etc., etc., means the height of the plant from the top of the pot to the top of the plant in its natural position. We make this explanation of our way of measuring, as many growers contend that the proper measurement is from the bottom of the pot to the tip of the longest leaf, and make their offers in that way.

An Invitation. Whenever possible, we solicit a personal inspection of our stock. Our Nurseries at Riverton, N. J., are within easy reach from either Philadelphia or New York (Time Tables on application) and something of interest will always be seen. We have considerably increased our facilities for the handling of Aquatic Plants, and our Water Lily Garden is now the largest and most complete in the world. This alone is well worth a visit from the most distant points. Aquatics are at their best from early July until late September. The collection not only includes large lots of the most popular sorts, but all the latest introductions and many new sorts of which we possess the entire stock, and which have not yet been disseminated; the different varieties of Victorias luxuriate here, and from present indications feel safe in saying that one or more sorts will be found in flower any day during the season.

AGERATUM PRINCESS PAULINE.

Acacia Armata.

A pretty spring flowering variety which produces its flowers in globular heads from the axils of the foliage in such a manner as to completely envelope the plant in a pleasing light yellow; an excellent plant for Easter forcing, succeeding under the same culture as the Azaleas. A nice lot of bushy plants. 6 inch pots, \$1.00 each; 7 inch pots, \$2.00 each.

Ageratum Princess Pauline.

A most distinct and novel variety of dwarf compact habit, rarely exceeding five inches in height, its peculiarity being that both colors, blue and white, are combined in the same flower; the body of the flower being white, while the stamens are of a light sky blue, giving the flower a pretty, variegated appearance; one of the most distinct new bedding plants, and a most desirable plant for the retail trade. \$1.25 per dozen; \$10.00 per 100.

Allamanda Williamsii.

This handsome variety is entirely distinct from all others, being quite dwarf and in no way resembling a climber, but forming a compact bush with trusses of bloom at every point, and having from two to four expanded blooms on each extremity at the same time and buds innumerable. It continues flowering the whole summer, and, with proper management, in the winter also. The flowers are of a very rich yet delicate tint of yellow, deliciously scented. 3 inch pots, 15 cts. each; \$1.50 per dozen.

ARAUCARIA EXCELSA.

Anthurium Scherzerianum.

A fine lot of 5 inch pots, strong bushy plants. 50 cents each; \$5.00 per dozen.

SPECIMEN AZALEA.

Import Orders for

AZALEAS

Special Prices for Immediate Orders.

We are now booking orders for fall delivery. Buyers who use a quantity of this most popular Easter blooming plant, will find it to their interest to place their orders for next season's wants early, thereby securing the choice of the stock at lowest cost for transportation, as the plants can be forwarded with perfect safety during October, by fast freight, even to the most distant points.

Our growers in Belgium are among the most successful men handling Azaleas ; they have been specialists in this line for many years, and their principal stock is sent to us.

All of our importations of Azaleas are sent here in bulk, and are all repacked at our own nurseries, so that any plants that may not have carried well are set aside. This insures our customers of securing only first-class stock, which cannot be compared with cheap assorted case lots, which are made up in Belgium, and are distributed on this side just as received, frequently not only containing damaged plants. but also, as a rule, many varieties not at all suited to the American trade.

The varieties we supply are only the most popular sorts suited to the American market. Our own representatives make personal inspections of the plants in Belgium previous to shipment, thus enabling us to guarantee satisfaction.

BEGONIA GLOIRE DE LORRAINE.

New Winter-Flowering Begonia, Gloire de Lorraine.

This is undoubtedly the greatest gem in winter-flowering Begonias yet introduced, and is now offered for the first time in this country. A few plants exhibited during the past winter attracted much attention, and it is certain to become a popular favorite. It grows from 10 to 12 inches high, forming naturally, graceful, bushy specimens, which from October to April are completely hidden in soft, rosy pink flowers. We offer young plants from 2 inch pots 30 cts. each ; \$3.00 a dozen.

Flowering Begonias.

The increasing demand for these plants has induced us to prepare a large stock of the best varieties, especially *Semperflorens gig. rosea* and *Haageana*. These two make excellent plants for sale during the holidays, finding ready sale at remunerative prices.

Cycas Revoluta.

(Sago Palm.)

We have a large stock of Cycas in very good condition, especially in medium-sized plants, suitable for retailing for house decoration, and shall be pleased to select plants of exceptional good value at \$1.00, \$2.00, \$3.00, \$5.00, \$7.50, \$10.00 and \$15.00 each. All of these sizes are in very good condition, and we are certain will give entire satisfaction.

DRACÆNA GODSEFFIANA.

DRACÆNAS.

Godseffiana. Undoubtedly the most striking new plant introduced this year. As shown in the illustration, the plant is of an entirely different habit and appearance from all other Dracænas; it is of free-branching habit, and throws out many suckers from the base so as to form beautiful, compact, graceful specimens in a very short time. Its foliage is broadly lanceolate, 5 to 6 inches long, and 2 to 3 inches wide; of a strong leathery texture; rich dark green color, densely marked with irregular dots and spots of a creamy-white, not unlike an Aucuba Japonica, of which the markings in the foliage strikingly remind one. The illustration gives but a faint idea of its striking beauty; it is a plant which will undoubtedly be grown very extensively for decorative purposes when it becomes more plentiful, as it is very hardy as a house plant, equaling if not surpassing in this respect the Aspidistra and Ficus. Strong plants in 4½ inch pots, \$3.00 each; \$30.00 per doz.

Bruanti. A graceful green leaved sort that is not as well known as it deserves to be; a most useful decorative plant that will stand as much abuse as a Rubber.

Marginata. Young plants of this fine variety. 3 inch pots, 30 cts. each; \$3.00 per dozen.

Massangeana. 4 inch pots, 50 cts. each; 5 inch pots, 75 cts. each.

Sanderiana. A new and entirely distinct species. It has thick textured narrow leaves which are closely set on slender upright stems, variegated with silvery white and green bands alternating and of various widths, the whole surface of the plant being covered with a silvery sheen of bloom. It is altogether different from anything heretofore known in the way of Dracænas.

**New Dwarf Bedding Geranium
"Mars."**

A superb bedding and pot Geranium; of very dwarf, compact habit, the plant itself not exceeding 4 to 5 inches in height, but exceedingly floriferous. The flowers are of a clear light salmon, darker in the centre.

75 cts. per doz.; \$6.00 per 100.

Justicea Velutina.

A pretty dwarf free flowering species, producing large heads of light pink flowers.

3 inch pots, \$1.25 per dozen; \$8.00 per 100.

Lapageria.

We offer a good lot of plants in 5 inch pots.

Alba, \$3.00 each. Rosea, \$1.50 each.

Maranta Massangeana.

A most useful dwarf growing variety, with pretty mottled foliage, very desirable for use in connection with ferns for filling fern pots, jardinières, etc.

3 inch pots, \$1.00 per dozen; \$8.00 per 100.

Musa Ensete.

(Abyssinian Banana.)

The leaves of this magnificent plant are long, broad and massive, of a beautiful green, with a broad crimson midrib; the plant grows luxuriantly from 8 to 12 feet high, producing a tropical effect.

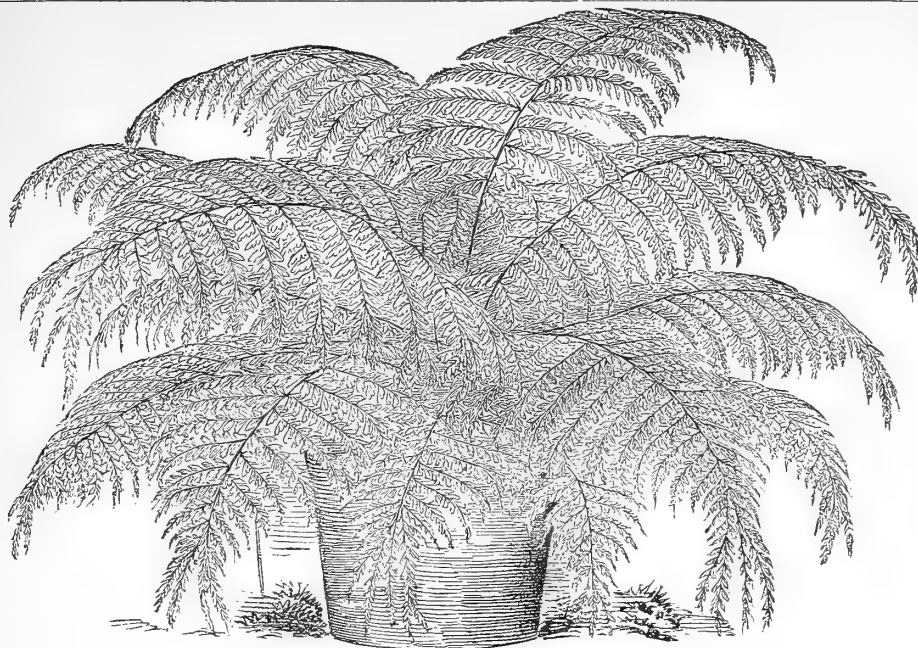

Strong 5 inch pots, 50 cents each; \$5.00 per dozen.

MICROLEPIA HIRTA CRISTATA.

As usual our stock of Ferns is very large, about 500,000 being now in pots ready to send out. Our collection has been especially selected for florists' use, discarding all such as are only useful in a botanical collection.

CHOICE VARIETIES OF SPECIAL MERIT.

Adiantum Capillus-Veneris Mariesii.

A pretty small-leaved form of this useful variety, very graceful. 2 in. pots, \$1.25 per doz.; \$10.00 per 100.

Adiantum Farleyense.

Nice young thrifty stock for growing on.

3 inch pots, \$3.00 per dozen; \$20.00 per 100.

4 " 5.00 " 40.00 "

Adiantum Fergusoni.

One of the prettiest of the crested Adiantums. Very much in the style of A. Wiegandi, but with larger pinnæ on longer stems. A charming variety for a collection or for growing into specimen plants. 3 in. pots, \$2.00 per doz.; \$15.00 per 100.

Adiantum Formosum.

An excellent variety to grow into specimen plants for decorative purposes.

2 inch pots, \$1.25 per doz.; \$10.00 per 100.

3 " 1.50 " 12.00 "

Adiantum Rhodophyllum.

We offer a fine lot of this useful large-leaved variety, which is one of the most desirable of this type. 2 in. pots, \$1.25 per doz.; \$10.00 per 100.

Asplenium Nidus Avis.

(Bird's Nest Fern.)

It is very rarely that this interesting variety is offered to the trade. We have been fortunate in securing a fine lot of 4-inch stock which we offer at 50 cents each, \$5.00 per dozen.

Cibotium Schiedei.

This is undoubtedly the finest of all Tree Ferns for use in decorative purposes, and though appearing very soft, is in fact very hardy, as has been demonstrated by the leading decorators in all the Eastern cities, succeeding admirably as a house plant, which is not the case with any other Tree Fern. It possesses a grace and delicate appearance that is found in no other plant. It is a variety that is always scarce and difficult to obtain. We have succeeded in growing a fine lot of this variety, and offer beautiful decorative plants of it.

7 inch pots, \$2.50 each.

8 " 3.50 "

9 inch pots, \$4.00 each.

10 " 5.00 "

Microlepia Hirta Cristata.

We consider this one of the finest Ferns in cultivation to grow into specimen plants, and while it is of such a delicate, graceful appearance, that would lead one to think that it was useless as a house-fern, it is, nevertheless, one of the best for this purpose, and when well grown meets with as ready sale as the popular Boston Fern. It is seldom that we are in a position to offer it in quantity; this season our stock is exceptionally large, which enables us to offer it at the following low prices:

2½ inch pots, 75 cents per doz.; \$ 6.00 per 100.

3 " \$1.25 " 10.00 "

Nephrolepis Cordata Compacta.

In our estimation this variety is the finest of all the sword ferns; it is of free, strong growing, compact habit, attaining when fully grown a height of about 2 feet. The fronds, which are of a dark green color, are very rich, of upright growth, with just sufficient arch in them to make them graceful.

2½ inch pots, \$1.25 per doz.; \$ 8.00 per 100.

3 " 2.00 " 15.00 "

PANDANUS VEITCHII

—:Palms:—

Our Leading Specialty.

We again call special attention to our stock of Palms, which is the largest and most complete in the country, especially in the varieties and sizes used in the general Florist trade. Our stock of Kentias alone occupying over one and a half acres of glass, and all other popular varieties being on hand in proportionate quantities.

Special Notice.—Our measurements of plants where given, as in the case of Palms, etc., etc., means the height of the plant from the top of the pot to the top of the plant in its natural position. We make this explanation of our way of measuring, as many growers contend that the proper measurement is from the bottom of the pot to the tip of the longest leaf, and make their offers in that way.

PALMS.==Continued.**KENTIAS.**

Our stock of Kentias occupy over one and a half acres of glass, the largest block of these most useful palms in the world. Medium sizes are generally scarce this season, and there has been a gradual stiffening of prices on the \$1.25 and \$2.00 sizes of Belmoreana, and the 40 cts. to \$1.50 sizes of Forsteriana, and while these are of full market value, they are not as heavy as sent out by us on previous occasions. Other sizes remain unaffected.

SPECIAL NOTICE.

Our measurements of plants where given, as in the case of Palms, etc., etc., means the height of the plant from the top of the pot to the top of the plant in its natural position. We make this explanation of our way of measuring, as many growers contend that the proper measurement is from the bottom of the pot to the tip of the longest leaf, and make their offers in this way.
